

## Information regarding IGCSEs for private candidates in the United Kingdom

Private candidates in the UK wishing to enter for IGCSE should note the following regulations:

- private candidates in the UK will be accepted **only** if they enter through a UK centre which has been specially authorised by Edexcel International to enter private candidates for IGCSE. Details of these centres appear below.
- private candidates will **not** be able to take the coursework option, where it is available.
- each centre retains complete control to accept or refuse private candidates, and over the conditions under which they are accepted.
